

Extraordinary
Value!

Extraordinary Value BTP-M280B Receipt Printers

The SNBC BTP-M280B mini-printer is an extraordinary value, providing advanced features, lower initial cost and extraordinary dependability. Using industry standard emulations, it's easy to integrate and is certified with many popular POS applications.

The BTP-M280B produces either receipts or kitchen orders faster than other popular impact printers. Featuring trouble-free drop-in paper loading, it is adjustable to accommodate 76, 70, or 58mm paper rolls. Print is clear and precise, allowing you to print distinctive receipts with barcodes, coupons, rebates and specials. User defined graphic logos are easily downloaded with SNBC's free utility software.

In your kitchen, you can print condiments or special instructions in red ink for easy identification. When space is an issue, you can mount your BTP-M280B directly on a wall in a convenient location. Orders won't be overlooked in a noisy, fast paced kitchen – an optional print messenger can be set so that light flashes and alarm sounds as they are printed.
